Thank you for purchasing the K3 Sport In-Ear Headphones. Please read this user guide carefully before use.

## ■ Brief introduction

The K3 Joule is a sport In-ear Bluetooth stereo headset; designed for ultimate portability and functionality within today's mobile world. IPX 4 certified, water, moisture & sweat resistant for premium sport performance.

## ■ Before use

### 1. Overview

1	Adjustable stabilizer	5	●Multi-functions button
2	Microphone	6	LED indicator
3	▲volume up/next track	7	Charging jack
4	▼volume down/last track	8	Three optional ear tips

## 2. Charging for headset

The headset comes with a built-in rechargeable battery, it is recommended to charge the battery completely prior to initial use. When the headset is low power, the headset emits prompt tones every 2 minutes and the red & blue LED flashes alternatively. Please recharge the battery of the headset.

### Charge utilizing the USB cable

1. Turn on the cover of charging jack, and plug the USB charging cable
2. Plug another side of cable to the USB port of PC

Red light on: Charging

Red light off: Charge is complete. It will take approximately 2 hours to complete full charge.

### Remarks:

- 1) The battery is recyclable.
- 2) Batteries (battery pack or batteries installed) shall not be exposed to excessive heat place, such as sunshine, fire or the like.

## ■ Getting started

### 1. Turning on/off the headset

Functions	Operation	Prompt tone
Turning on	Press and hold ● button about 3 seconds until blue LED flashes	Power on
Turning off	Press and hold ● button about 3 seconds until red LED flashes	Four decreasing tone

**Remark:** In order to save power, the headset will turn off automatically if a device is not connected after 5 minutes.

### 2. Wearing the headset

- Put the stabilizer into the headset and rotate to the suitable position as following shown:
- Choose the suitable size ear tips according to your ear and wear as following shown:

- Set up the cord management clips (optional accessory) to get better wearing as following shown:

### 3. Pairing/connecting

#### 1) Pairing headset with Bluetooth cell phone via Bluetooth

Prior to using the headset for the first time, you have to pair it with a Bluetooth-enabled cell phone. The pairing procedures are subject to different models of cell phones. Please refer to your cell phone user's manual for further information.

The general pairing procedures are as follows:

- 1) Keep your headset turned off and within 1 meter of phone ;
- 2) Press and hold  about 5 seconds until the red and blue LED flash alternately, the headset enter into pairing mode and emits "pairing"
- 3) Activate your cell phone's Bluetooth function and search for Bluetooth devices within range, select "K3 Joule" from the list of devices shown (enter password "0000" if the headset prompt);
- 4) After successful connecting, blue LED of headset flashes twice every 4 seconds and emits "connected"

#### Remarks:

- ◆ Pairing mode will last 2 minutes, the headset will back to standby mode if the pairing failure.
- ◆ If the pairing is not successful, turn off the headset and repeat the steps as above.
- ◆ When the headset is in standby mode and not connect with device, short press any button of headset, it will try to connect to last connected device.
- ◆ When the headset is out of effective range and not connected with device, it will automatically re-connect if in effective range within 5 minutes. If 5 minutes elapsed, short press any button, it will re-connect.

#### 2) Pairing the headset with a Bluetooth transmitter via Bluetooth

You can connect the headset to a Bluetooth transmitter to enjoy music wirelessly. (Bluetooth transmitter, not included in accessories) for example. The pairing steps are as follows:

- 1) Keep your headset and transmitter within 1 meter when pairing;
- 2) Make the headset enter pairing mode (Please refer to "How to enter pairing mode);

- 3) Turn on the Bluetooth transmitter and make it enter pairing mode. It will search for Bluetooth devices automatically and send a pairing request;
- 4) When the headset requests to enter a PIN No., the transmitter will response “0000” automatically;
- 5) After successful pairing and connecting, blue LED of the headset flashes twice every 4 seconds and emits “connected”

**Remarks:**

- ◆ The pairing password is “0000”. So, the headset can only pair with a Bluetooth transmitter whose pairing password is “0000”.
- ◆ If pairing still fails after several tries, please refer to the Bluetooth transmitter’s user’s manual for further information.

**3) Pairing headset with multi devices via Bluetooth**

The headset can connect with two Bluetooth cell phones at the same time.

The general pairing procedures are as follows:

- 1) Pairing the headset with device one
- 2) Turn on the headset and make it enter pairing mode again, and pairing it with device two
- 3) Operate device one to connect with headset. The headset has already connected with two devices in this moment . Restart the headset, it will also connected with two devices automatically.

**Remarks:**

- The multi-pair function is off in factory set, please turn on this function as following:  
**Turn on:** long press ● and ▼ button under standby mode(not connected device), and release it until you hear four raise tone  
**Turn off:** long press ● and ▲ button under standby mode(not connected device), and release it until you hear four raise ton
- To improve the stabilization of headset, we suggest you turn off the multi-pair function when you only connect with one cell phone.

**4. Battery display**

When the headset connected with IOS device, it will display the battery of the headset on the device. When the headset is in low battery, power symbol show red, it emits you to charge for your headset.

## 5. Making a call with the headset

**Notes:**

- ◆ When the volume is adjusted to max, you will hear "maximum volume". When the volume is adjusted to min, you will hear single prompt tone.
- ◆ If you want to remote control last/next song, pause/play, it needs your Bluetooth mobile phone or Bluetooth transmitter paired with the headset to support AVRCP profile, please refer to the user's manual of your mobile phone or Bluetooth transmitter for further information.

**7. LED indicator**

LED indicator	Status of headset
Red and blue LED flashes alternately	Pairing mode
Blue LED flashes once every 2 seconds	Not connected to device
Blue LED flashes twice every 4 seconds	Connected to device
Red LED flashes instead of blue LED	Low battery

**8. Factory Reset**

In the status of charging, long press ▲ button about 3 seconds and release it until the red and blue LED flashes simultaneously, you will hear 2 prompt tone "reset paired device list"

**Remarks:**

After factory reset, the paired list of headset will be deleted. After turn it on again, the headset will enter pairing mode automatically, and you need to re-pair and connect with Bluetooth devices.

**■ Care and maintenance**

Read the following recommendations carefully before using K3 Joule Sport In-Ear Headphones. Following these guidelines, you will be able to enjoy this product for many years.

- ◆ Please note that the cord management clips are optional accessory for better wearing.
- ◆ Keep the product away from direct sunlight or hot places. High temperatures will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.

- ◆ Don't expose the product to cold areas. It may damage the internal circuit board.
- ◆ Don't try to disassemble the product. Service with authorized service center only. Refer to website @ support@thek3company.com
- ◆ Don't use intensive chemical products or detergent to clean the product.
- ◆ Don't scratch the surface with sharp things.

In case the product doesn't function properly, send it to the store you bought it. The staff will help you to solve the problem

## ■ FAQs

### **1. What does it mean when red LED flashes instead of blue LED?**

Battery is very low power, thus needs to be recharged.

### **2. Why is the red LED off when charging?**

- a) Please make sure the charging device is connected with headset well;
- b) The battery may be depleted. Please charge the battery for 30 minutes, and then the red LED will be ON.

### **3. Why can't I hear the sound on the headset?**

- c) Make sure the headset has been switched on;
- d) Make sure the volume is not too low or muted;
- e) Make sure the headset connects with the mobile phone correctly;
- f) Make sure the distance between the headset and the cell phone is in the available Bluetooth range.

### **4. Why can't I hear the sound clearly on the headset?**

- a) Make sure the mobile phone is in the strong signal area;
- b) Make sure the headset is in the available range of this product.

### **5. Why the pause/play, last/next song not function when playing music?**

Make sure your Bluetooth device supports AVRCP (Audio/Video Remote Control profile)
